Rein Automotive Valve Cover Kits Deliver One Stop Shopping Convenience for BMW Engine Service

- All gaskets, and related components included for N20, N52, N54, N55 engines

Cranbury, NJ...CRP Automotive, a leading source of OE-quality replacement and service parts, offers Rein® Automotive Valve Cover Kits for popular BMW N20, N52, N54, and N55 engines. The original BMW valve covers and related parts are made of plastic and tend to warp and crack under extreme temperatures, especially in turbocharged engine applications. CRP Automotive product managers have selected high-quality replacement parts that have been tested by a third-party testing lab to meet CRP's highest standards and deliver the durability and reliability that BMW customers want.

Rein Automotive Valve Cover Kits allow technicians to place one order and receive all of the necessary parts for a complete valve cover replacement. The Rein Valve Cover Kit contains all required gaskets and hardware pre-installed for a simplified installation. The kit also comes with a new breather hose, and an oil cap. As needed, some kits include an eccentric shaft sensor which typically has a high failure level and should not be reused as validated by CRP's professional repair technician Innovation Council.

Easy Online Lookup

The Rein Automotive under car program features easy look up on CRP's online application catalog that can be accessed through the CRP Automotive or Rein Automotive brand websites, www.reinautomotive.com, or Show Me the Parts, www.showmetheparts.com/crp/.

About Rein Automotive

Rein Automotive offers a wide range of OE-quality automotive replacement parts for import vehicle applications, from motor mounts to hose assemblies and just about everything in-between. Rein programs include AC parts, an antivibration program, an expanded hose program including power steering hoses and a master cooling program inclusive of coolant hoses, water pumps and kits, coolant expansion tanks, thermostats and thermostat assemblies along with caps and sensors. The Rein Automotive name stands for consistent and reliable quality. Only high quality parts wear the Rein Automotive name, whether for European or Asian vehicles.

About CRP Automotive

CRP Automotive is a leader in the manufacture, marketing, and supply of OE quality import automotive parts. CRP provides some of the industry's leading brand names, including AAE Steering System Components, Rein® Automotive Parts and Accessories, Pentosin Technical Fluids, and AJUSA Engine Parts. All products are backed by the CRP promise of quality and superior service. Founded in 1954, CRP Automotive has established a solid reputation for exceeding its customers' expectations. CRP maintains key distribution centers in the NAFTA market.
