

FORTUNATELY, QUALITY, SERVICE, AND TRUST DON'T TAKE UP MUCH SHELF SPACE.

At CRP Automotive, we take great pride in our history of offering superior quality replacement parts & fluids for import and domestic vehicles.

But perhaps more important than any individual part or program is our deep inventory of three essential items: **Quality, Service, and Trust.** It is these three attributes that truly keep our customers coming back.

QUALITY: CRP Automotive only deals in OE-quality parts. But more importantly, we have an "OE-quality" organization — guided by strict **ISO 9001:2008** quality management standards

SERVICE: Like some of the performance sedans we carry parts for, CRP Automotive is strong yet extremely responsive. Many of our customers rely on us for fast order processing, up to the minute catalog information, and timely new product introductions.

TRUST: It's easy to stand behind your products when you carry premium brands like ContiTech, Rein Automotive, Pentosin, and AJUSA. And that's exactly what CRP Automotive has been doing for over 50 years.

As leaders in Original Equipment timing belts, timing belt kits, V-belts, and serpentine belts, ContiTech and CRP offer NAFTA's most complete and cutting edge programs available for Asian, European, and domestic vehicles.

Rein Automotive offers European Standard replacement parts and accessories for a wide range of European import applications, including A/C parts, coolant hoses, anti-vibration and suspension parts, axle boot kits, and wheel bearings & bearing kits.

Since 1927, Pentosin has provided some of Europe's leading automotive manufacturers with OE technical fluids. CRP offers the complete Pentosin program of antifreeze, brake and hydraulic fluids, motor oil, and transmission fluids.

AJUSA is a leading international manufacturer of automotive gaskets/sets, cylinder head bolt sets, and hydraulic lifters. Manufactured in Spain, AJUSA offers the world's widest coverage of European and Asian applications.
